

SEMI PHINISI

SINGKOLO

LABUAN BAJO

The image shows the interior of a wooden boat, likely a Singkolo, with warm wooden walls and floors. A long wooden dining table is set for breakfast with white plates, bowls, and glasses. A bowl of fruit (apples and oranges) sits on the table. In the background, there's a map of the Indonesian archipelago on the wall and a decorative hanging ornament. The lighting is warm and natural, suggesting daytime.

Singkolo is a wooden boat made by an expert whose daily life is building boats in Labuan Bajo. Singkolo is the art of boatbuilding, polishing, and design interior.

Operated during the pandemic but brought blessings to local people.

We will take you around the beautiful island of Komodo with 4 rooms designed to be as comfortable as possible with very adequate facilities.

Your boat is your second home with a local boat.
